

Shadow & Pal

Specification

BISLEY

Shadow

Pal

Shadow

Shadow by Bisley brings you open mobile storage, with wooden front and a drag handle, so that your most needed items can follow you around wherever you need to go. There's no need to rummage through your belongings to find what you need – Shadow ensures everything is easy to reach, right next to you, wherever you are. Plus, it's slim design means that it can be tucked away neatly at the end of the day.

Shadow is also compatible with Mosaic hanging accessories for extra organisation of your smaller, day-to-day desktop items.

Pal

Pal by Bisley is inspired by Bisley's Pedestal, but re-imagined to meet the modern workplace needs. It is lightweight yet robust, offering under desk storage for the home or office. With discreet side pull handles and a seamless carcass design for added strength, it comes with an intermediate drawer for storing personal belongings, and one filing drawer suitable for A4 suspension files.

Set on castors, your Pal can go wherever you do! The seat pad makes it an ideal perch place for impromptu collaboration. And, with a large choice of colours, finishes and fabrics, Pal is an attractive and flexible addition to any vibrant, agile space.
